

Prism Informatics to handle SAP projects in Sri Lanka

by [Mohammad Aslam](#) on August 25th 2010 and filled under [Technology \(General\)](#)

NEW DELHI: Prism Infotech, a software development and IT business consulting services provider has bagged another two SAP projects in Sri Lanka. The first project is from Silicon Coatings for SAP implementation and the second order is for implementing MTO, awarded by Textured Jersey Lanka. Nippolac is the only Sri Lankan Paint Manufacturing Organization to become a member of the prestigious Paint Research Association of England. Their specialization has been in decorative, industrial and automotive paints (interior/exterior), primers/undercoats, solvents, ancillaries, chemicals and wood care finishes. Prism Informatics formerly known as Aakruti Holding is one of the fastest growing software development companies, with most of the business coming from its ever satisfied repeat customers.
