MUMBAI:Nokia Music Connects, a joint venture conceptualised by Hong Kong based Music Matters and Indian media portal Radioandmusic.com, commencing this year is expected to bring the national and international music fraternity together on a common platform to discuss the issues related to music business. It is envisaged as an annual gathering of Indian music business and will be held at Taj Lands Ends, Mumbai on 1-2 September,2010. A series of high powered panels formed of key industry executives, who will contemplate on and discuss several pertinent issues facing the music industry in India is a feature of this 2 daylong conference. Speakers representing various panels include regulatory heads, music label honchos, advertising gurus, corporate heads as well as top level creative professionals from the music industry, both from India and abroad. The Modules that will make up the conference includes India in India, India to the World and World to India. Each module will be discussed over half day each, consisting of varied topics.
