

PrestaShop Customization & Development Expert in India Launches their first PROJECT

Posted for [Crayons Creations](#) by [Viji Paul Antony](#) on June 28th 2010 and filled under [Information Technology](#)

We are happy to announce the launching of our first PrestaShop Installation and Customization project. As per internet resources, its clear that we are the first IT Enabled Services company in India publishing the details of PrestaShop Installation & Customization (www.globalardyss.com) in the portfolio section of our website on 10th June 2010.

PrestaShop is an e-commerce solution which is both open source and free. PrestaShop e-Commerce Solution is very light (around 2 MB not including translation files), so it's easy to download, install, and update. PrestaShop is so lightweight and speedy, even customers with slow connection speeds will enjoy buying from your prestashop.

Crayons Creations expertise in Open Source Services - Development, Customization Solutions of PrestaShop, WordPress, Joomla etc.

Sent us an Enquiry if you are in search of cheap and budgeted E-commerce shopping cart website.
